Emory Campus Map -----	back cover

This event has been organized solely on a volunteer basis, and could not have taken place without the dedication of hundreds of volunteers. Thank you to all of you!!!

This is a movement and a coming together to agree on the Bottom Line: everybody's dash of life should be peaceful, healthy, and with adequate food, shelter, and clean water.

The humanitarians involved in this event come from all religious groups, all economic strata, and all political parties. They are humanizers, not monetizers. Their joy comes from making a difference, NOT from making a dollar.

We hope that other institutions duplicate this effort around the world. We want the human species to deserve the title of "Humanity"!
